Welcome to Pediatric Dentistry.

“Our mission is to provide specialized and comprehensive care for infants, children, and adolescents in a friendly, safe, and state-of-the-art environment with a focus on prevention and education.”

We are pleased that you have chosen our practice and welcome any questions you may have. We would like to take a few minutes to share with you some information about our clinic.

Due to the nature of our practice, we request that children be accompanied by a parent or guardian to all appointments. The parent/guardian is welcome to go with the child while they are being seen, or you may wait in the waiting room if you would prefer.

Children are welcome to bring a DVD to watch while they are having work done. We also have a selection of DVDs they may choose from. Children may also bring comfort items such as blankets, teddy bears, etc.

In order to see your child in a timely manner, we ask that you come approximately 15 minutes prior to your first appointment.
